

## **Foundology**

**With Stephanie Lee**

### **Student Supply List:**

Kit Fee: \$20.00 (payable directly to instructor on day of class)

- Two 1lb. rolls of lead-free solder. This should be “solid wire” solder and NOT “acid or rosin core”. Any lead free solder from a stained glass supplier will work. Lowe’s carries a brand – Sterling – that works great as well.
- Two medium sized cans of butane fuel refill (I provide torches and heat safe surfaces)
- 4-8 oz. package of white Sculpey clay - oven dry variety (do NOT bake it!)
- Items with texture to cast (dig through your junk drawer)
- 20 feet each of half-hard or full-hard sterling wire in 18-gauge, 22-gauge, and 26-gauge (check out [www.thunderbirdsupply.com](http://www.thunderbirdsupply.com) or [www.riogrande.com](http://www.riogrande.com))
- Tin snips strong enough to cut 22-gauge sheet metal
- Water container for dousing hot wire/metal
- Wire cutters
- Needle-nose pliers
- Large flat tipped pliers
- Anvil or steel block (check your local steel fabricator for 1/2" + thick scrap steel)
- Hammer
- Flat or triangular metal file
- Rags
- Tweezers
- Misc. small imagery or found text to incorporate into resin filled bezels (these must be laser or toner copies, NOT inkjet)
- Small amount of gel medium (put some in an old film canister or something similar)
- Smallish paintbrush to apply gel medium to bezel imagery
- Found jewelry and/or objects and natural elements to incorporate into jewelry
- Ribbons, vintage fabric scraps, lace, etc. (there will also be Provisions packets for sale with items chosen with this class in mind)
- A few inexpensive brass stampings and filigree such as those you can find at [www.vintaj.com](http://www.vintaj.com) or [www.fancifulsinc.com](http://www.fancifulsinc.com)
- A variety of beads and findings to incorporate into jewelry

### **Optional Supplies:**

- A few small sheets of mica
- Various wires in other metals and/or gauges (copper, brass, iron, etc)
- A couple of rubber stamps with patterns or designs you like on them (we’ll have plenty to share)

**Kit fee includes:**

- Brass wire
- Sheet brass and nickel-silver for all students - enough for class projects
- Flux
- Torches and heat safe surfaces
- Blackening and etching agents
- Various tools and supplies for students' use
